## SIGMA TAU GRADUATE FELLOWSHIP TO ZEIDLER 1941-1942

Howard M. Zeidler, a member of Epsilon Chapter, was awarded the Sigma Tau Graduate Fellowship for 1941-42. He received his Bachelor of Science degree in Electrical Engineering last June and plans to spend the coming school year at the Massachusetts Institute of Technology, where he has been a regularly enrolled student in the graduate college during the past summers' sessions.

The following is quoted from a letter to the Sigma Tau Graduate Fellowship Committee by Dean M. A. Dorland, Assistant Dean, Division of Engineering and Architecture, Kansas State College, who, during the past four years, has been watching over the development of this outstanding young engineer:

"Mr. Zeidler has the highest scholarship average of any student in our present senior class of approximately 250. He possesses an extraordinary amount of energy, outstanding mental ability, and shows promise of a great deal of administrative capacity. He was chosen the outstanding student in the Division of Engineering and Architecture at Kansas State this year with the following citation:

"Howard M. Zeidler of Girard, Kansas. Senior in Electrical Engineering. Father is a Methodist minister. He has earned 20% of his college expenses. Is a licensed radio operator. Has operated KOAM at Pittsburg and KSAC. Is a member of Sigma Tau (honorary engineering fraternity), Steel Ring (professional engineering fraternity), Eta Kappa Nu (honorary elec-

trical engineering fraternity) as recording secretary, and Phi Kappa Phi (general honorary fraternity). Has sung in Glee Club and worked on the staff of the *Kansas State Engineer*. He plays golf and tennis. Is chairman of the electrical engineering committee for this year's Engineers' Open House. His scholastic average for his first three years of college is 2.95.

"It is difficult for me to visualize Sigma Tau finding a more worthy candidate for this fellowship."
